My Dear Doctor,

I have finished my work here and proceeding to Bangalore this noon. All the literature re of our Hospital is exhausted so ask Mr. Khadgiri to send some of the copies to the following address.

Here I have entrusted Mr. K. R. Acharya with the work. He will go as far as Raichur + Hospet. He is a most promising man.

As I had no sufficient money with me I have taken Rs 15 from A.I.S.A. Khadi shop.

Nothing more

My Dear Doctor,

I came here yesterday noon from Athni. I have been able to collect Rs 160 from there. So upto now Rs 300 have been collected from Athni. The remaining will be brought by Mr. R. P. Joshi on the 3rd evening.

upto now only Rs 878-15-0 have been collected in the Bank. I am afraid of the result. We must wait & see.

(1) I had asked Mr. Ghodgiri to supply me the list to whom he has supplied the books which he has not done yet. Please ask him to write to all of them to send us the sale-price or return the books.

(2) I saw Mr. Bhausaheb Jalalpure at Athni, he has sold about 50 Tickets only.

(3) Tomorrow I am going to Kirloskarwadi again.

(4) Mr. Bopardikar from Bombay wants to stay in our Hospital. I am forwarding his letter to you, please write to him directly.

(5) I have written to Surgeon General Bombay giving the Specifications of our Power-Plant.

(6) Please send Ghodgiri on the 3rd with money & Counterfils.

Hoping to hear from you soon

My dear Dr Kokatnur.

I am in due receipt of your letter. I am glad to know about the news of the hospital as well as the arrival of x-ray part.

I have the claim on the room till the 5th of June when the college opens. The new distribution of rooms will take place on the tenth of June. I have no worry about the stay till that time here. By the time a claimant comes few more extra days will pass. Perhaps if the demand of the rooms is not great I may get a devil's chance to continue my — residence for the month of June. Such is my position. Hunting and fixing a new

let me know before, when you are to come

We discussed with Dr Desai few films of Skull spine, joints and bones last time. I attended a couple of operations on tonsils by Dr Yoglekar. Another new operation for fracture of neck of femur I could attend - as we had to go with our portable machine to take the film. First they drill a hole through the great trochanter and the two fractures pieces and hammer a pin inside to hold the fragments in position - If successful the pt is allowed walking within a few days.

I have already purchased one volume of British authors for Rs 31/4/. Other two volumes I will purchase before coming there. Another book modern x-ray technique which is practically devoted to details of parts of the machine and technique

Room for a purpose of a few days – and to arrange about about a cot, chair, & table – bother about engaging a new boy – all this would have been a nuisance for me. So I cancelled the idea. Only if there is a rush in the hostel for new admissions I may be put to trouble to vacate after 10th of June – perhaps by the middle of next month. If suitable I may enter as a parasite with some one or stay out in a lodging & boarding hotel. Any way till 10th of June I am decided master of my room – this may continue probably till 15th or onwards – that depends on the rush in the hostel.

I am glad to learn you are coming here within a week. I would like to have you stay with me. Please

of taking radiographs with practical positions etc. When I wrote you previously I had mentioned I may not go for this book. I have read the book from the library and find it very useful and indispensible especially for technical part of the work. The total cost will be nearly Rs 110/- I have received Rs 70/- for books. I may require about Rs 40/- more to finish the bargain.

My term in radiology department officially expires on the 17th of June and non officially on the 1st of June. I will have to adjust my future programme by consulting the authorities.

Please send me money for the month of June as well as money for the books at your convenience. B.C's to Calt.

I am doing well.

कुटाचेक साष्टांग नमस्कार वि. वि.

आपण संततीं नियमना नरीक पुरुषांची शास्त्रक्रीया करीत असतां असें समजल्या वरुन आपणांस स्वतीक समाचें तसदी देत आहे. तरी स्वतीक का बींचा सावेसार कुटासा आपण करीक अशी आशा आहे.

माझी स्वतः ची परिस्थिती स्वतीक ठिकाचें आहे. माझे शिक्षण कुंवर्ड विल्लिंग्डन कालेजांत B. Sc. पर्यंत झालेले आहे. व सध्यां मी बँकेत एजंट म्हणून काम करीत आहे. संस्थाची पगार ठिकाणेंच मिळतो सध्यां ४५ रु. पगार होतात येतो. वयुर्दे कुंवरी वाढ होईल यांची आशा असेक नाहींच. माझे वय आज ३८ वर्षाचे आहे.

माझा विवाह सन १९२८ साली झाला. त्यावेळी मी कॉलेजांत शिकत होतो. माझी पत्नी मॅट्रीकपर्यंत पोचलेल

वर्षांनी लहान असून तीचे वय आज ३१ वर्षांचे आहे. आमचे विवाहास बारा वर्षे झाली. त्या अनुषंगाने आम्हास पांच अपत्ये झाली आहेत. पाहिली मुलगी आज नऊ वर्षाची असून लहान मुलगी सध्या एक वर्षाची आहे व त्यांचे मधंतरी बाकीच्या तीन मुली आहेत. माझी मिळकत ही आपणांस बेताचीच आहे. माझे कुटुंबात चार माणसे व आई अशी आहेत. येथील तीन माणसे अधिक शिकून असून एकाने दिंडीचे दुकान काढले आहे. या परिस्थितीत ही कसा तरी संसार चालविला आहे. व त्यांत पुन्हा दोन वर्षा आड पत्नीचे बाळंतपण मुळे तीचा शारिरीक व कधी आर्थिक त्रास वरचेवर होतो. पत्नीचा ही सर्व गोष्टी समजतात परंतु उपाय न मिळाल्याने कांही उपाय नाही.

दोन तीन वर्षापूर्वी संततीनियमनाच्या साधनांचा उपयोग करण्याचे मनांत येऊन तसा प्रयत्नही केला परंतु पत्नीस साधनांचा उपयोग करता येत नव्हता यामुळे माझीही मिळाल्याने त्याचा कांहीच उपयोग होत नाही. म्हणून आता शस्त्रक्रिया करून घेण्याचा माझा विचार आहे. त्याबाबतीत माझ्या ज्या शंका आहेत त्या खालीलप्रमाणे —

(१) या शास्त्रक्रीयेमुळे पुरुषांचे प्रकृतीवर काय-परिणाम होतो- इष्ट की अनिष्ट?

(२) या शास्त्रक्रीयेनं संततीनियमन तरी निश्चित होते काय?

(३) यामुळे दुसऱ्या संततीनियमन न होते की अनैसर्गिक पुरुषत्व नाहीसे होते.

(४) शस्त्रक्रीयेनंतर पुरुषांना संभोगेच्छा काय राहून तो संभोगक्षम राहतो अगर नाही.

(५) सदर शास्त्रक्रीयेने अगोदर पत्नीची परवानगी कायदेशीर रीतीनं घेणं जरुर आहे काय?

(६) अशी शास्त्रक्रीया केलेले पुरुषा बरोबर संभोग केलेमुळे बायकांचे प्रकृतीवर काही परिणाम होतो काय?

(७) या शास्त्रक्रीयेसाठी दवाखान्यांत किती दिवस पडून राहावे लागते.

(८) या शास्त्रक्रीयेस अगोदी कुणाची कुठे कुठल्या गावचे रहिवासी काय वयाची येहिल (आपले मुळे वारसदार होणे पासून परत येण्यापर्यंत)

(९) आपले मते पुरुषांनी शास्त्रक्रीया करणे जरुरीचे अगर बायकांनी शास्त्रक्रीया करणे जरुरीचे. (जरुरीचे = कुणी कोणाला न सांगता हवीहवीशे)

(७०) पुरुषांच्या अंगाला व बायकांच्या दाढीला हरभऱ्याचे आणि करडाचे तेल व थोडा लिंबूरस एकत्र करून लावावे.

आहे या मुलांना चांगले शिक्षण देण्यासाठी कोणती योजना करावी असे आहे तोपर्यंत पत्नीला व पहिल्या मुलांना तीन महिने माहेरी संसारी आहेत व बरोबरच्या मुलांना तीन महिने आजोळी आहे. तेव्हा आपण शक्य तितक्या सोयीस्कर पणे सर्व ठिकाणचे महिने कसे करता येतील ते विचारावे आहे.

उत्तरा साठी पोस्टेज सोबत आहे.

आपण अहमदनगर अलीकडे येऊन तीन चार दिवस राहून जाण्याची माझी इच्छा आहे.

आपला पत्ता मी अंदाजाने लिहिला आहे तो बरोबर पत्ता कळवावा.

कळावे लोभ असावा ही विनंती.

My dear Shriniwasrao,

Your letter to hand yesterday. Sorry I had no time to answer your urgent enquiry. Dr. Tendulkar of German friend was with us and we were busy discussing some problems. Please excuse.

We have been installing the X-Ray plant, after which the whole premises will be electrified. To meet these extra expenses we shall to raise our present rates, hence no printed leaflets are kept ready.

(a) Our Institute conducts a General Hospital and a Sanatorium for T. B. Patients.

(b) Every sort of treatment is available for a T. B. Patient. i.e. Artificial Pneumothorax, Phrenic Nerve operations, Gold therapy and other drug treatment etc. You might be knowing that the late R. M. Katti's younger daughter (Mrs. Bhagwat) and Mr. Bopardikar from Bombay are in our Sanatorium. Mr. Bopardikar is almost cured and is leaving for Bombay tomorrow. Mrs. Bhagwat also is on the way of improvement.

(c) The charges are as under:-

1st class cottage.....Rs. 35/- p.m.
2nd " " Rs. 25/- p.m.
General ward.....Rs. 15/- p.m.

These charges comprise of rental, lighting, Nursing, Visits and daily medicine. Injection, Pneumothorax and operation charges are extra. Altogether the monthly Hospital charges do not exceed Rs. 50/- p.m. The patients have to make their own arrangement for food etc. Of course there is a nice club which will supply food, drink etc., as advised by the Doctors.

(d) There is special arrangement for female patients both in the General ward and outside. I wont advise a patient

patient to come here alone. A T. B. Patient requires special care.

(e) The cost of living here is very cheap here. Milk, Butter, vegetables can be had damn cheap. The cost per head will not exceed Rs. 5 - 6 per month.

I think the above will give you all the information you need. Personally I am proud to write that in our area homely atmosphere prevails. The patient and his attendant will not feel in different waters. You can safely advise your friend to come here. If they require Ayurvedic treatment they can avail of it by consulting Dr. Savnur of Belgaum who is on our consulting Board of Physicians and Surgeons.

I am O. K. I hope I shall be able to go to Bijapur in the next month. I crave for the company of you all so much. My B. C. to Doctors and other friends.

Hoping to be excused for the delay.

B o m b a y. 2.

Dear Mr. Nayak,

I am in receipt of both your letters. I was away and hence the silence so far. I am glad to read that the Rt. Hon. Dr. Jayakar is returning soon.

Our power plant is not yet ready. The Engine is being erected at the moment and the whole installation may go more than a month still. The delay is unavoidable since we have not received the whole consignment from the Company.

I am at a loss to know what to do. Mr. Koujalgi will be coming over to Bombay some time during the next week and will call upon you and will discuss the situation with you.

The Raffle was drawn on May 8th and the yield was very poor.

We are keeping well. Glad to know that Miss. Lanu is keeping quite fit.

With Regards.

Yours sincerely,

To

Dear Sir,

In response to the interest taken by our friends and well-wishers in the propgress of the Karnatak Health Institute, we beg to submit the following account of the Institute for public information and keep you in touch with its affairs.

A General meeting of the of the Karnatak Health Institute with the Hon. Mr. N. G. Joshi, Deputy Speaker, Legislative Assembly, was held on the Hospital premises at Hukeri Road on 2nd of July 1939. We are happy to note that the Meeting was attended by a very large number of Members who showed their appreciation of the progress of the Hospital and Sanatorium. A new Governing Council consisting of the following Gentlemen was elected for the ensing triennium.

1. H. H. Shri Kshatra Jagadguru, Kolhapur. President.
2. Mr. D. V. Belvi, B.A., L.L.B., Belgaum, Vice- President.
3. " N. G. Joshi, B.A., L.L.B., Belgaum, Deputy Speaker, Legislative Assembly, Bombay.. Vice-President.
4. " T. S. Koujalgi, General Secretary. Hukeri Road.
5. Dr. G. R. Kokatnur, M.D., (Minn.) The Chief Medical Officer.
6. Hon. Mr. A. B. Lathe, M.A., L.L.B., Minister of Government of Bombay, Bombay.
7. Dr. R. H. Bhadkamkar, M.A., M.D., Poona.
8. " N. S. Hardikar, Hubli.
9. Mr. B. B. Potdar, B. A. L.L. B., M.L.C., Belgaum.
10. " P. R. Chikodi, B. A., Belgaum.
11. " Bandopant R Kulkarni, Contractor, Belgaum.
12. " K. S. Patil, B.A., L.L.B., M.L.A., President, District, Local Board, Belgaum.

The Management have ever been anxious to recognise

the services of friends of the Institute who have cooperated with them and rendered great help from time to time; and consequently it was decided at the meeting to enroll these Gentlemen as Hon. Members of the Institute. We are happy to note that the list of our Honorary Members extends over a very wide range, including men of different classes and professions - a measure of popularity of the Karnatak Health Institute. By the way we are quoting below a few names from our list :-

1. Shri Kshatra Jagadguru, Kolhapur.
2. Sjt. R. R. Divakar, Hubli.
3. " H. S. Kou algi, Bijapur.
4. Mr. K. S. Patil, B.A., L.L.B., M.L.A., President, D.L.B., Belgaum.
5. Dr. R. H. Bhadkamkar, M.A., M.D., Poona.
6. Mr. V. V. Yargop. B.A., L.L.B., Diwan, Miraj Jr. Budhgaon.
7. Dr. C. G. Kulkarni, Durbar Surgeon, Sangli.

The Hospital and the Sanatorium began functioning in 1935 with half finished buildings and under circumstances which were not very encouraging from a financial point of view. But the progress achieved during the brief span of thes four years will amply justify the support which the generous minded public has been giving. So far Rs. 55,800/- have been collected by way of Grants and Donations. But the amount can hardly meet the requirements of a first class modern Hospital. The management have been doing their best to expand the scope of the Institution. Besides Grants and Donations, they have been throughout spending, at the cost of their comforts and convenience, even a part of the Hospita earnings on buildings and equipment. Some Rs. 69,000/- have been spent so far on these items, and much remains yet to be done.

Our X-Ray plant has now arrived and will be insta immediately. It is also proposed to provide the Hospita with the further amenities of electric lights and wat pipes.

Considering the condition of public health in India, it need hardly be emphasised that the existing medical facilities are far from being adequate. Leaving aside big Cities like Bombay and Calcutta, the situation in the interior is rather disconcerting. The task is so great that Government and Missionary efforts apart, the public must rise to the occasion and help relieve the sufferings of our fellow Countrymen.

It may be observed that at least in this part of the Country the Karnatak Health Institute is the only Institution conducted by our people on a Missionary basis of Service and Sacrifice. It is an Institution started and conducted by the people of the country and looks to the people of the Country for help and encouragement. It aspires to place the facilities even of the latest developments in Medical Service within the reach of the humblest of our Countrymen.

Dear Dr. Kokatnur,

The letter of Mr. T. S. Koujalgi dated 29-8-1939 reached my hands 4 days ago. Thanks for the same.

It will be better if a copy of the representation is sent to each one of the members of the Provincial Board. Along with the representation you will please send them a copy of your report and the work done so far by your Institute. That will help them to understand the exact position of your Institute.

You will also write to the members of your Managing Committee and request them to write to the members of the Provincial Committee whom they know. If each one writes like this, you may be in a position to get the sympathy of all the concerned.

Let me know what Narayanrao says and then I will write to you again.

Sir,

Your letter No. 100/ 1939 to hand. We think Mr. K. G. Date, Overseer was to be deputed here with it for enquiry. We waited for him, but we regret none turned up.

Herewith we are supplying the information you require.

(1) The Sanatorium has accommodation for 16 patients - 8 in the General Ward and 8 special cottages.

(a) The General Ward was erected by a grant from Silver Jubilee Committee Fund. The plan was submitted to the Bombay Government and after approval by them it was erected.

(b) Special Cottages consist of 3 rooms with a verandah. One room 12' x 12' for the patient open on East and West and South and the others for attendants. The cottages are on the mode of those at the Wanless Sanatorium, Kupwad.

(2) All possible precautions for disinfecting the sputum and excreta are scrupulously taken care of. The sputum cups provided by us were approved by the All India Tuberculosis Association of New Delhi. Drinking water is used direct from tube wells. Latrines with septic tanks are provided for the Sanatorium.

(3) Dr. G. R. Kokatnur, B.S., M. D., (Minn.) U. S. A., is the Chief Medical Officer and the General Surgeon. He is assisted in his work by Dr. R. D. Waghawadekar, M.B.B.S., & X-Ray Specialist and Dr. R. S. Kulkarni, L.C.P.S.
Besides this permanent staff the Institute has appointed a Board of Hon. Consulting Physicians Surgeons who consulted whenever necessary.

Dear Dr. Kokatnur,

I have the letter of Mr. T. S. Koujalgi. I am glad that the Kolhapur State is being approached.

One Mr. D. N. Warekar from Ranebennur is suffering from T. B. The Doctors of Ranebennur have advised him to go to Hukkeri Road and get treatment at your hands. His friends came to me and requested me to give a note to you. Hence, I am doing so. The patient is poor. He was a medical practitioner at Ranebinnur itself. It is not possible for him to get the treatment at the Institute without the aid of his friends. Please do examine him and give him the necessary treatment.

I will be at Chikkodi Road on the 19th. I am to deliver a lecture there. I intend to meet you either at Chikodi or at Hukeri. Can you come to Chikodi on the 19th? Let us spend the evening there together.

This is an unexpected letter to you, so also I have got an unexpected favour from you.

I wish to have an interview with your enlightened Chiefsaheb in connection with the affairs of our Institute. We have enlisted the sympathy of so many neighbouring States and we count some of them amongst our patrons. Just recently Mudhol, Miraj Jr., and Sr., Jath, Savnur left at the disposal of our Institute the Anti-T. B. Funds collected in thier different areas.

We have, with the help of the Bombay Government equipped our Institute with X-Ray outfit. Now we are in search of a worthy personage to perform the opening Ceremony of our Power House and Radiological Department. Hon. Mr. Jayakar has consented to preside over the

over the occasion. I wish to propose to your Chiefsaheb to perform the opening Ceremony. So please let me know when I can see you first. After hearing from you I shall run down to you. We shall personally discuss the matters there.

So please write to me at your earliest convenience and oblige.

With thanks.

I have not written to you for a long time. I hope now you are alright in health.

After all this waiting and botheration our X-Ray plant has been erected. Today we had trial exposures. The machine is a nice one and given good work. It is ready for use very tomorrow.

Now comes the question of the opening Ceremony. I have written to Hanama and Diwakar. You all three put your heads together and find a donor for us.

One more thing to-day I have written to Mr. K. S. Deshpande, Pleader, Bijapur and Sjt. Jalihal pleader, Gadag. Copy of the letters are attached herewith. Will you please write to Mr. S. P. Re:- Printed Railway Time Table.

Sir,

I have the honour to make the following suggestion for incorporation in the Printed Time Table:-

(1) Under "Health Resorts and Sanatoria" Belgaum is mentioned giving some information of the town. The -- information may please be brought up to date by the -- following addition:-

There are now three colleges at Belgaum - (1) Arts, (2) B.T. and (3) Law. The Extension of the town which is 2 miles away from Belgaum is called Thalakwadi. All -- Southern Divisional Offices like the Commissioner's Office, the Dy. Inspector General's Office, the Superintending -- Engineer's Office etc. are at Belgaum. The Chief of the Kurundwad Junior State has transferred his capital from Kurundwad to Madhavpur (two miles from Belgaum.).

(2) There is a Health Institute at the Hukeri Road Railway Station called the "Karnatak Health Institute" under the able supervision of Dr.Kokatnur, M.D.(Mine Sota U.S.A.). The water in the well there has got medicinal properties and many people go and live there for the sake of their health as the climate is also good.

(2) I think it will be better if you will kindly depute one of your Subordinates to bring the information in the book up to date in respect of the tract through which the Railway passes. As regards Belgaum and the surrounding tract

the Railway Mandal will be glad to supply him complete information.

I have the honour to be,

Sir,

Your most obedient servant,

Honorary Secretary.

Sir,

Please allow me to lay the following few lines for your kind consideration :-

You might be knowing that the Karnatak Health Institute is running a Hospital and a T. B. Sanatorium at a distance of few furlongs from the Hukeri Road Railway Station. Patients are visiting our Institute from all parts of Karnatak and the neighbouring Districts and States for treatment. Sometimes they come here with their belongings.

Lately thefts are occurring all around and our premises also are threatened since last week with the result that insecurity of life and propert is being felt daily.

I am simply drawing these few points to your kind attention from the standpoint of public security and I hope you will kindly instruct the proper authorities to take necessary steps in the matter and oblige.

Yours faithfully,

We are passing through great financial troubles just now as we never did at any other time in the life of our Institute.

I must squeeze about Rs.1000/- by hook or crook to tide over the crisis if we are to continue to hold on.

I had in mind Mrs. Umabai Kundapur to enlist her as one of our Patrons, which means she shall have to pay Rs.500/- in one sum or in instalments. Will you help me in this matter

To

The President,
District Local Board, Belgaum.

Sir,

I have the honour to bring to your attention the following few lines for favourable consideration :-

You already know the service the Karnatak Health Institute has been rendering towards Karnatak in general and especially to the rural population of northern Talukas of this District and the surrounding territory. The Institute is increasing its utility every year by adding new departments.

It will be superfluous to add that the Institute is conducting a fully equipped Hospital, to accommodate 24 beds, a Pathological Laboratory,

Radiological Department and T. B. Sanatorium. Thus it has brought within reach of the poor class the latest aid at a nominal cost.

Our experience for the last five years has convinced us that a majority of villagers find it impossible to bear these costs. So we propose to throw some beds quite free if adequate help comes forth from generous public.

We are proud to count your Board as one of the biggest donor and hence we again approach you to endow ~~to~~ two surgical beds in the Hospital by granting Rs. 600/- per year. The cost of maintaining a bed comes to Rs. 300/- per annum.

I hope you will kindly sanction the amount in the interest of suffering villagers and oblige the Institute.

I have the honour to be,

To

Lady H. Cawasji Jahangir,
Chairman, The Bombay Mofussil,
Maternity, Child Welfare and Health Council,
Ready Money House, Nepean Sea Road,
B O M B A Y.

Madam,

It was through good fortune that I met by accident Sardar R. J. Potnis, B. Ag., of Poona at a Hurda Party in a village from one of the Karnatak Districts during the last week. There, during conversation he talked to me about you and Your Council. He also told me that Your Ladyship is taking great interest in the rural uplift - especially the Medical side of it and sparing no pains to make the Council really useful for the object with which it has been inaugurated. So, I make myself bold to address you on the topic I love best and the Institute I have dedicated myself to.

Fortunately for India today our best brains, men and women of public thought including the

the Viceroy and Lady Lumley of Bombay, have recognised that village is the unit of India and the Villager is the real God to be served in every way if India is to rise and take her place in the Comity of Nations. There is little doubt that cheap medical relief along with general knowledge about Sanitation, Health and Hygiene occupies a prominent place in the scheme of Rural Health. The Institute, I represent, Madam, may well claim that it is playing its part in this noble work of Health Scheme by medical aid in the mofussil and is the only Institute of it its kind in the whole of the Bombay Presidency.

Perched on a small rocky elevation near the Hukeri Road Station on the M. & S. M. Ry., between Miraj and Belgaum on the Poona Hubli line, is the Karnatak Health Institute - a Society, which runs a General Hospital and a T. B. Sanatorium right in the midst of rural population.

Within a radius of about 20 miles approachable by good roads, there lie not less than 200 villages - big and small with an approximate total population of 2 lacs (200,000).

The Institute is serving this area by extending first class medical aid and indirectly educating the masses about health and other aspects of life.

The Institute maintains 24 beds in the Hospital and 16 beds in the T. B. Unit. It is fully equipped with

with a Laboratory, X-Ray plant, Ultra Violet Rays and a well equipped Operation Theatre to carry on any major surgical operation.

In my humble endeavour, I have been able to do this much so far. But I believe and am thoroughly convinced that this is just a trifle and yet much remains to be done. There is no Maternity added as yet.

I am sure, Your Ladyship will agree with me when I say that it is the spread of knowledge of prevention rather than cure among the masses, will go a long way to raise a healthy and strong population.

In this connection, it would be a great boon if you can spare a day or so out of your precious times to pay us a visit and inspect our work and give us the benefit of your mature knowledge and advice.

Further I shall be glad to wait upon you in Bombay and discuss the matter over if you are kind enough to grant me an interview.

Awaiting an early reply.

I remain,

Yours faithfully,

M. D.,
Chief Medical Officer.

I am a resident of Belgaum. In a short time, I wish to come to my native place on leave for about two months. During that period, I wish to undergo the birth control operation. Viz: operating the tube in the male organ. (नलीका छेदन). This method has been described in many books on birth control.

Will you kindly inform me the details of such operation and oblige?

(a) After performing such operation whether a man becomes impotant? Does it affect in way on the manhood of a man?

(b) What is your charge for the operation. What is the charge per day to stay in your hospital as an indoor patient. The food & diet arrangements will be made by me privately.

(c) How many days shall I have

to stay as an 35 in-door patient?

Please note that I am only about 35 years of age. I have got two children. But my family circumstances are such that I am compelled to adopt the final stage in birth control. I have tried several methods of birth control but with failure. The details will be informed to you in person. At present I want the replies of the above questions. Sir,

In continuation of the letter dated 7th March 1940 to Dr. Kokatnur from Mrs. Umabai Kundapur, I have great pleasure to inform you of her desire to donate Rs. 1001/- one thousand and one in sacred memory of her husband, late Mr. Sanjivrao Anandrao Kundapur, whose seventeenth death anniversary comes off today.

This donation is earmarked for constructing two blocks for T.B. patients. While at the Institute last Monday, Umabai was told that one block for the T.B. patient costs only 500/-. If two such blocks are jointly and simultaneously undertaken, the construction may be within one thousand, and that with more and better equipment and arrangements than in an ordinary one. We therefore want to have a detailed talk with you and decide upon the plan and sketch of the proposed blocks. We shall thank you to kindly come over here at your earliest, say within a week

wit

within a week.

The construction of the blocks, desires Umabai, should be over within three months from the date the amount is paid to the Institute. The Demand Draft on the Belgaum branch of Canara Bank Ltd. of today's date for Rs.1001/- is kept ready for being handed over immediately on deciding upon the plans of the blocks etc.

Kindly show this letter to Dr. Kokatnur and convey my respects to him.

My dear Dr. Hardikar,

Regarding Mrs. Umabai I think she should donate Rs. 1200/- with which we will build two cottages, which when occupied will give us Rs. 40/- to Rs. 50/- a month. Thus she will give a permanent source of income to the Institute, in recognition of which, one orphan or helpless woman will be admitted and treated free with diet in the ward at a time.

I think this will be a fair proposition. Please let me have your views after you consult Mrs. Umabai.

With Regards.

Dear Mr. Godbole,

Yours of the 21st March duly received. Regarding the operation it is a simple operation. You are required to stay here for about 4 days not strictly confined to bed however. It is a safe operation for Birth Control and is known as Vaso Ligature.

You are perfectly O. K. in every respect except being sterile. The operation does not deprive you of manhood in any way but on the other hand it leads to in some cases partial rejuvenation. The sex instinct and pleasures are kept in tact in every sense for a period of about 15 years. They may be less after that period.

The operative fee will be Rs. 25/-. The daily room charges including dressing and treatment etc., will be Rs. 1-8-0 per day. There is ample space for kitchen etc.

I think I have answered all your querries.

With Regards.

Dear Mr. Potnis,

A long time I have no word from you. We intend to celebrate our Anniversary on May 5., and I have not found anybody to preside over the Function.

Regarding Lady Jahangir, she had promised to write me after she returned from Delhi. But to-date I have not heard from her yet. I don't know where she is. So far as Dr. Muskar is concerned I think I can approach him as I have met him once.

How should I move in the matter? Will she preside over the Function? What do you advise? Can you suggest anyone else? I expect your help and sincere co-operation in this matter.

Please seriously think over the matter and write to me early. Our Anniversary falls on May 5th.

Should we celebrate the Anniversary or not? We are completing our five years on 5th,. Please give this matter a serious thought and reply early.

I am collecting the material to erect the cottage. The Engineer is preparing the scheme. I will let you know as soon as it is ready. I think we should be able to start it in the next week.

My dear Dr. Kolkatwar.

Your letter to hand. I was out of Poona and returned only yesterday evening.

For your Anniversary you may invite Dr. Bhasker but I do wish you to call Lady Jahagir, Dr. Jacocks. Col. Dabholkar or Dr. Benjamine, Dr. Grant of Calcutta to visit your institution. These are the supporters for the Rural Hospitals and the medical adv. Dr. Jacocks is the chief trustee of the Rockefeller-Foundation Trust-funds with Delhi as his headquarters. He was to here recently. Col. Dabholkar knows him well and may talk

good about you. Amongst the chiefs. Shrimant Tatya sahib, the Raja ~~Chief~~ of Miraj (Senior) and the Raja ~~Chief~~ of Aundh. will be of some help to you. If you have no time to approach these persons I think you can write to Dr. Bhaskar, Dr. Tilak or if they are not available take Mr. K. S. Jatar C.I.E. from Poona for the function. But this should be the stepping stone for further progress of approach to the right authority. The only authorities in India for your type of the hospital are, Lady Jahangir, Dr. Jacocks, and Dr. Grand. Lady Lumley will help if Lady Jahangir is taken up in the show. I am touring and am busy and therefore this delay in reply. Yours Sincerely R. J. Patkin.

Dear Dr. Row,

This is to introduce to you a great friend of mine, Dr. G. R. Kokatnur.

Dr. K. is one of the most distinguished members of the Medical Profession in Karnatak and is the founder and the Chief Medical Officer of the Karnatak Health Institute at Hukeri Road.

The great work done by the Institute under the inspiration and devoted guidance of Dr. K. has brought me in close and constant contact both with the Institute and my friend.

The Institute is shortly celebrating the 5th. Anniversary of its foundation day and Dr. K. is proceeding to Bombay to assure himself of a suitable person who would preside over this important function.

I have often spoken to him of the great admiration you inspire in me and of the devoted and very old friendship which attaches me to your family. He wishes to meet you. I consider it as my previlege to give him this letter by way of introduction to you.

Yours Sincerely,

I beg to lay the following few lines for your kind consideration.

You might be knowing that the Karnatak Health Institute, Hukeri Road, is conducting a General Hospital and a T. B. Sanatorium since 1935. on charitable lines. The accompanying Reports will show the progress the Institute has made so far.

Now the Institute intends to throw some few free beds open for poor suffering people. In achieving this our object the Institute requires financial help from the public. The minimum cost of maintaining a free bed including diet will be Rs, 300/- per year.

59

So I request you on behalf of the Institute to contribute something out of your Charity Funds to help us in our undertaking.

Thanking you in anticipation.

30th April 1940.

Dear Lady Jehangir,

With reference to the accompanying correspondence which was addressed to you some days back Dr.G.R.Kokatnur, M.D., saw me on 22-4-40 and explained to me that his object in writing that letter was not to ask for any donation but to request you to preside at an annual function any Sunday in May or June this year that may be convenient to you. This indirect help you would render him would be of immense value to his Charity Tuberculosis Hospital in order to secure donation from other Princess and Land-Lords in those districts.

He has been working there in that locality for the last 5 years as the accompanying reports will show. The Surgeon-General had recommended Rs.6,000/- (Rs.Six Thousand) per year as a donation for the Tuberculosis Sanatorium there.

May I request you therefore, to let me know when it might suit you to go there and preside at the function. He has particularly asked to mention that he expects nothing from you or from the Mofussil Council and that he desires this moral support. You as the Chairman of the Bombay Mofussil Council can give to his movement and by visiting his institution at least once at that time.

He has asked me also to come over there at the above anniversary and as desired by him I am forwarding to him the

last Annual Report of Baby Week Association and the Mofussil Council.

The trains suitable to go to Hukeri Road Station (M.S.M. Ry.) is the Poona Londa Passenger leaving Poona at 10 P.M. and reaching Hukeri Road at 8-30 A.M. To return from that place the Mail leaves Hukeri Road Station at 10 P.M. and reaches Poona 6-30 A.M. The Sanatorium and the Health Institute are about half a mile away from the Hukeri Road Station. He requests you to be his guest and he would be glad to make all arrangement for you.

Dear Mr. Jathar,

Yours of the 2nd instant to hand. I am glad that you remember our Institute. We are very delighted to be of some service to you.

It is not mentioned in your letter from what disease the patient you intend to send here is suffering from. Tubercular patients and patients suffering from any other disease are admitted here. The T. B. Sanatorium is quite away from the General Hospital. Private tenaments besides general Wards are available both in the Hospital and Sanatorium. The tenaments consist of a kitcehn, Bath and a room for the patient.

The charges at the Hospital are Rs. 1-8-0 per day and at the Sanatorium Rs. 40/- per month. This includes Rent, Medicine, service, attendance etc. I shall be glad to do all I can for your patient when he comes here. If you inform us before hand our car will wait at the Station.

To give you my frank opinion regarding Hukeri Road in point of climate, I can say that it is decidedly cooler than Miraj and with better quality of water. Our charges are much lower than Miraj. Now as regards equipment, we have got all the necessary equipment for the treatment of Tuberculosis except Thoracoplasty and intra pulmonary operations. We are completely equipped for Artificial Pneumothorax, X-Ray and Phrenic operations. Miraj of course is a huge big concern with many ammunities of life available which we unfortunately do not possess as yet. I suppose I have given you a fare idea of what we are. In this connection it would be better if you can give us a flying visit and see it for yourself. I shall appreciate it very much.

My Dear Doctor,

It is four days since I have come here. I had to change a bit my tour programme. I learnt that Mr. Anandrao was away. Moreover I had to dispatch so many books to different places. That took whole of my time.

Yesterday I had been to Sangli to negotiate for the sale of Tickets with an Agent of Goa Tickets. I hope to win him through the influence of S.I. of Police & Hon. Minister if need be.

This noon I am proceeding to Kirloskarwadi & shall return tomorrow morning. After spending a day here again I shall proceed to Islampur, Kirhad & Satara.

I hope you will please send some books to Gokak fairs with Ticket Books.

What about chikodi people? Please write to Shankarrao to let me know about the tour programme

of Mr. Pasulkar. I have also dropped a card to him today.

I have to make you a request - and I hope you will please mind not the trouble. This morning I have received a card from Dr. Varze in which he writes about the sickness of my wife. That card has disturbed me a good deal. I must, in humanity at least, must look to my wife's health & her needs. I am sending my nephew Madhu to Athni today. You know I have not drawn any money from the Institute for the last three months. Moreover I have spent a lot in travelling & postage during the last month since my return from Bikaner. I require money also for my travelling & further correspondence so I can't spare anything for my family. Will you please send me a cheque of Rs. fifty only to meet this situation. For hardly days more we must spend & spend for the Raffle. I am to seek money & spend & this means extra trouble every moment. I hope you will please relieve me a bit - & oblige.

Sir,

Yours of the 20th to hand.

So far as I remember the entrance requirements in American Universities is a course like Inter Science including full Organic Chemistry, Physical Chemistry and a second language like German or French.

You may join any first class type 'A' University, for example, Minnesota, Michigan, Horward, Columbia, Pensylvania. But it would be better if you join a University whose degree will be registrable in India like Columbia.

The approximate monthly expenses would be about 100 dollars or Rs. 300/-.

At least 5 years will be required.

Dear Madam,

You might recall the fact that Dr. Mhaskar has already requested you to preside over our Anniversary function.

I had come to Bombay during the last month called upon Dr. Mhaskar and have explained to him everything.

Since then, we have been waiting to hear from you, to fix the date and write to us. But to date I regret I have not heard about the date as yet.

I am writing this simply as a reminder. Will you please fix the date and inform me as early as possible. I would like to know it about two weeks earlier. Any Sunday in June will suit us. Awaiting an early reply and hope to be excused.

I remain,
Yours truly,

Dear Dr. Kokatnur,

I am giving this note of introduction to my friend Mr. Puthrannarya. His younger brother is affected by T.B. and he has been advised to stay in your Sanatorium. Mr. Puthrannarya is a very celebrated social worker and is employed in the Western India Match Co. Ltd., Ambernath. He is not in very affluent circumstances. I hope you will give such facilities and concessions to his brother as you can and will also bestow special attention on his treatment. I hope your Sanatorium is flourishing and with best wishes, I remain,

Dear Mr. Kabbur,

I am herewith returning your designs of the cottage and the temple along with rates. The designs do not show the height nor the type of materials to be used. So, our Contractor has quoted the different types of rates from which you can get an approximate idea of the estimate.

All our present buildings are second class structures and the cost per Sq. Ft., of the plinth area is about Rs. 3/- per Sq. Ft.

A building with modern facing would naturally cost Rs. 4/- or more according to the type of the design selected by you.

According to the above rates the estimate caculated on the plinth area would be approximately Rs. 8000/- for the 1st class cottage and Rs. 7000/- for the temple.

So, please let me know what you would advise me in the matter.

Yours sincerely,

Dear Brother,

I trust you are one of the numerous friends and admirers of Dr.N.S.Hardiker. The Doctor completed his 50th year last month and his friends and admirers in Hubli celebrated the occasion of his 51st birth day on 7th May 1940.

In order to commemmorate the happy day, the organizers of the function decided to raise a small amount (minimum being Rs 1000/-) and help the Doctor to publish "Literature on Volunteer Movement". You know Dr.Hardiker is the pioneer of Volunteer Movement in India to the cause of which he has devoted his whole, sacrificed and suffered. I need not point out to you how it would be in fitness of things to help him in the publication of the above literature and thereby express on this occasion our appreciation of his services to the country.

A portion of the proposed fund has already been collected and spontaneous contributions have been received, individual figures of which range from Rs 101/- to Rs 11/-. I believe you would also like to contribute your quota to the fund and you are being approached through this letter for the same. It is desired that the intended minimum quota of Rs 1000/- be completed before the end of June 1940 and the same be handed over to Dr.Hardiker on the 1st July 1940. Hence those desirous of sending their contributions are requested to do so as early as possible before the third week of June 1940.

The contributions from you and from your other friends if any may please be sent to the above address where they will be thankfully accepted and from where receipts will be forwarded. The detailed account of the fund will be duly published in the press at the time of its presentation to the Doctor.

Thanking you,

My Dear Doctor,

Sorry we could not meet the other day. I left Budhgaon at 3 P.M. and was at Sangli till 6 P.M and then left for Kolhapur & returned yesterday noon.

I learnt from Mr. Joshpur the object of your visit; but not the details so please let me know in full the programme you have chalked out for Dass's performances. After learning these I shall fix up my own affairs.

Now for the Raffle I am afraid the response is very poor. As Mr. Upadhye is out of Bombay, I expect no Contribution from that source. You know well the affairs at Chikodi, Athni & Belgaum. The Karwar Agent - messrs Malpikar and Sons have proved a hoax. With all this fuss they have been able to sell only 60 tickets. So I have to depend mainly on Contributions from our far off friends, who as usual are exerting their best to help us.

Now as for the Counterfoils & money received there please arrange to send all the Counterfoils & Rs 210 here on the 13th with Mr. Ghodgiri. I shall require him here for a day or two, to assist me in preparing the accounts etc. for the Draw. If you keep the whole money there I will not be able to show sufficient to our credit at the Bank to meet the prizes & Royalty. So Please don't keep anything there out of the Raffle a/c x

Mr. Jerzop is very unsympathetic this year so we must be quite on the mark otherwise I shall be quite embarrassed this time. You yourself must come here on the 15th night so that we shall settle about the prizes to be awarded at the Raffle and also about the programme of Mr. Das.

Hoping to hear from you.

Yours Sincerely
T. Ranjeeji.

My dear Divansaheb,

You know the draw of the Raffle is on Sunday the 16th. I regret I shall not be able to be present at the time of draw. One of my patients who was operated upon this morning has started bleeding. Besides, Dr. Waghwadekar has gone to Shahapur this afternoon to attend to some private business. Under the circumstances it is wellnigh impossible for me to leave the station without prejudice to the patient.

I ask you therefore to kindly excuse my absence and also request H. H. Shrimant Rajasaheb to kindly excuse me for the same. I hope you will manage the whole show. I shall try to see you personally at the earlist opportunity.

I was delighted to read in papers that you are visiting the Law College at Belgaum on the 29th instant.

Will you kindly allow me to take this opportunity to invite you on behalf of our Institute to pay a visit to it if convenient.

The Institute is the only of its kind in Karnatak started in a perfect rural back ground with a view to extend the best surgical and medical aid to the villagers.

The whole Institute has been built out of public contributions and donations. The foundation stone was laid by H. H. The Maharaja of Kolhapur. Many noteable persons like Shet Jamanalal Bajaj

Hon. Mr. B. G. Kher, The Finance Minister, Dr. Gilder, Hon. Munis etc., have visited the Institute and have spoken highly about the service it is rendering to the poor.

It is situated at a distance of 40 miles from Belgaum and is about one and half hour's journey connected by a good road. We can fetch you here from Belgaum and again return in about three hours.

We shall greatly appreciate if you will kindly make it convenient to visit our Institute on the occasion when you come to Belgaum and guide us with your mature judgement and experience in the cause of Village India.

Sir,

It is long since I had the pleasure of seeing you. Yourself with a number of University students were on tour and had been to Bijapur and I think, there I was introduced to you by our mutual friend Sjt. Sali Ramarao.

You might have read from Sanyukta Karnatak about the activities of our Institute. I have been working as its Secretary.

We learnt from the Papers that your Diwansaheb Sir Mirza Ismail is to visit Belgaum. We have requested him to pay a visit to this our humble Institute. I am afraid that he may disappoint us knowing so little about our Institute. I wanted somebody to see him on our behalf and explain to him the benefits our Institute will get by the visit

from so illustrious a person. Moreover ours is a unique Institute in the whole of Karnatak and as such deserves every attention from the leaders of Karnatak.

Sjt. Mudveedu Krishnarao whom I met by chance asked me to write to you in this behalf. He himself will let you know what we expect from you.

Please excuse me for the troubles. With

M. & S. M. Ry., Park Town, Madras.

Sir,

We the undersigned patients and their relatives residing at the Karnatak Health Institute and T. B. Sanatorium beg to state as under with regard to your letter No. 1802 of 24th June 1940.

We know that traffic is not the only ground that weighs with the Company in stopping their trains at particular Stations. The Company's policy is also to serve the suffering humanity. We beg to point out here for your information that the Mayor of Bombay Corporation is going over to this place on the 4th August 1940 for the Opening Ceremony of an electric installation at the Institute and some eminent medical men are also accompanying him. Our point in bringing this matter particularly to your attention is not for the inconvenience these ~~xxxxxxx~~ gentlemen are put to for a day but to show to you that the Institute is getting popular and is attracting patients from all over the Presidency.

Another point is such Institutes have naturally to be situated at places which are far away from crowded big cities where the Railway traffic is heavy. Besides this we can't expect a big traffic of sick people travelling in trains. We therefore, hope that you will kindly take humanitarian point of view into consideration and stop the down Poona-Hubli Mail at Hukeri Road.

We beg to remain,

Sir,

Your most obedient servants,

My dear Doctor Kokatnur,

Shrimant Balasheb has asked me to write to you to send the remaining amount which you owe to him. It seems that you did not carry out your promise to send Rs.100/- every month. He seems to be very earnest about the re-payment of the balance. It is needless to add that you should have kept your promise. Please see that the balance is paid without any delay. Mr. T.S.Kaujalgi had told me that your share in the last lottery will be utilised in paying off the debt of Shrimant Bala Saheb. I was under the impression that you had done so.

My dear Ramakant,

Since you left this place we have again been making necessary changes etc. in the 'Kundapur Kutir'. The Latrine work is complete. Now the Septic Tank is being constructed.

According to your suggestions we are adding a verandah to the frontage of the cottage.

Now the only draw back that remains in the cottage is that, we have put the comode in the small bath room. To remove this we wish to add a separate bath just in front of the kitchen. This will mean an extra expense of Rs. 100/-.

Will you please request your sister to add this much to her donation and oblige?

I hope you will please excuse me for making this fresh demand on your purse.

Hoping to hear from you.

Sir,

We shall be highly obliged to you if you will please give due consideration to the following few lines and help us by removing the difficulties.

You might be knowing that our Institute is running a General Hospital and a T. B. Sanatorium just near the Hukeri Road Station for the last five years. The accommodation is for 40 beds. The nearest Post Office to our Institute is that of Mallapur - a Village Post.

As the popularity of our Sanatorium and Hospital is increasing, the number of letters, Registers, Money Orders etc. we are receiving is increasing simultaneously. From the very begining we have been experiencing many difficulties. As the work has increased they are being very keenly felt.

124

(1) Some of our correspondence is simply addressed as 'Karnatak Health Institute, Hukeri Road.' Such letters some times first go to Hukeri Town and then are redirected to us the next day.

(2) Some enquiries are simply addressed as 'Karnatak Health Institute, Hukeri'. These naturally go to Hukeri Town first and then again redirected to us.

The same thing is happening with Telegrams also. Our telegrams are usually sent to Hukeri Road Railway Station and are delivered to us in course of time. On many an occasion the telegrams are addressed by similarity of names to Hukeri instead of Hukeri Road. They go to Hukeri first and then are posted to us again the next day.

All these factors are causing considerable inconvenience and annoyance to patients as well as to us.

Therefore, is it possible to change the name of the Post and give a new post under a new name? I am putting this request to you on behalf of the suffering patient world and hope you will favourably consider and reply.

We have also made a similar request to the Railway Authorities.

Yours faithfully,

District Local Board, B e l g a u m.

Dear Sir,

On behalf of our Institute Sjt. Narayanrao Joshi, B.A.L.L.B., The Vice President of our Institute had sent an application to you in the month of February for a grant of Rs.600/- per annum to maintain two surgical beds. I regret your Board has for some reasons rejected the same.

I, herewith wish to lay before you once again a few lines for kind consideration.

You know that our Institute is gradually progressing and new departments are being added to increase its utility. The aid of the Institute, I am glad to write, is being sought after by small and great alike.

From our experience of the last five years we have come to the conclusion that until and unless we undertake to feed some poor deserving patients,

126

the objects of the Institute will never be achieved. As there are no permanent funds to finance the activities of the Institute we are unable to do any thing in this direction. We have, therefore, appealed to local Bodies and individuals to come to our aid.

I think that yours is the only Board which can set forth a good example by granting Rs.600/- per annum towards the cost of maintenance of two beds.

I hope you will kindly reconsider our application and do the needful.

Thanking you in anticipation,

Yours faithfully,

Dear Sir,

We have much pleasure in announcing to you the establishment of the above Society which was started with the aim of helping the victims of Tuberculosis by opening and regulating Anti-Tuberculosis clinics and to control the said terrible disease by every possible means.

The Society at present is running three out-door clinics in the three different localities of Calcutta where free treatment on up-to-date lines is given to one and all, without any distinction of cast, creed, colour or sex.

Sometimes we get various kinds of inquiry regarding the sanatoria in India, from the patients coming in touch with our clinics, therefore we shall be highly obliged if your good-self be kind enough to send us a copy of your latest report together with an application form for admission and other informations regarding the charges required for each bed.

Hoping to be favoured with an early reply and thanking you in anticipation.

Sir,

I desire to bring to your notice the following facts for prompt enquiry and necessary action.

One, Mr. M. V. Sholapur, an Indoor Patient left our Hospital on 27th May 1940 with a promise to remit the balance due to us by Money Order. We waited for a while and then sent one or two reminders to him for our dues. To our surprise we heard from him that he had sent the Money Order on the very 31st May 1940 and has received the acknowledgement from the Post. As our Office had not received the Money Order, we suspected some mischief and requested the said Gentleman to send us the acknowledgement. It has just reached us.

From the Postal stamps on the said

acknowledgement we see that the Money Order was presented in Ganapatgalli Branch Post Office, Belgaum. It bears no stamp of Mallapur Branch Post Office, the signature of the Payee is 'S. R. Patil' who is unknown to us. From all this we see that some body has committed the mischief. We shall present the said acknowledgement after hearing from you.

Please enquire and oblige.

Yours faithfully,

Secretary.

Dear Mr. Kabbur,

Sorry I could not see you before leaving Bombay. Sjt. Kher's tour programme was abruptly settled on Tuesday. So I had to run down here to make due preparations. I was along with him for a whole day. He has promised his help to raise funds from Bombay.

Now you have with you the (i) Index plan and (ii) General lay out of our Sanatorium. Please, therefore, decide the final plan of your cottages. We wish to take them in hand on [illegible]. We are greatly handicapped. The rush of patients is so great that we have been obliged to hire a nearby building for our Hospital. If you send Mr. Toll here in the 1st week of October we shall be greatly obliged.

Mr. Hukerikar was talking to me about your plan of laying out some plots in our area on which people should be induced to erect modest residences and create a Trust, the profits of which are to go to the Hospital funds etc. I highly appreciate of this your idea. We have reserved the area adjacent to Dhupdal Road for Convalacent Ward(south-west corner in Survey Nos. 246 - 248). This place is quite suitable for your idea. If you will please send your plan of the proposed Trust I canm give my humble suggestions and keep the same befor our Governing Council. I am sure, they will accept it. Sjt Narayanrao also has suggested us about such buildings for want of funds we ourselves are unable to take the scheme in hand. I hope you will please write to me in detail and oblige.

Sir,

With reference to your letter No. 944 dated the 7th September 1940, I have the honour to say that the money order in question was wrongly paid to the Regional Transport Officer, Belgaum.

The amount of the money order was since paid to you on the 21st September 1940.

I very much regret the inconvenience to you in this respect.

Sir,

Your letter No. A.175 dated 8th September 1940 to hand. As already written in our first letter, all these botherations are caused though there is a Post at Mallapur. If letters are simply addressed as Mallapur, some times they go to Mallapur near Gadag. To avoid all this the only safe way, we think, is to have a Branch Post of our own.

My Dear Doctor.

Please excuse me for not going there yesterday night.

I came here yesterday noon. The Banks people had not yet submitted the account. I had, therefore to see the Diwan saheb & ask him to order the Bank manager to prepare the whole account & to submit it without delay. All this took much of my time hence I could not write to you very yesterday. I shall have to stay here upto Monday to get the amount (Rs 120 or 00) from the Bank.

Today all the offices were in the morning & the Bank as usual in the noon hence the account was not submitted in time. The amount will be paid to me on monday only.

I hope you will please excuse me for this. I am going to Mr. Mahishi this noon & shall request him to do something for us before

The end of this month. His 5th term of office will expire by that time, as the fresh elections are to be held in the next month.

I shall go there on monday by express. In the meanwhile if you wish me to pay Rs 100 to Shrimant Yuvarajsaheb please write to me I shall do according to your order.

आपले पत्र पोचले. बोअरची ट्रायल पुन्हा घेतली असता तासाला सुमारे ४०० ग्यालन पाणी येते असे आढळून आल्याचे पाहून मला आनंद वाटतो. परंतु माझ्या मते बोअरमधे पाईप आणखी खाली सोडल्यास यापेक्षाही अधीक पाणी म्हणजे सुमारे तासाला १००० ग्यालन पाणी मिळावे अशी माझी कल्पना आहे.

तेव्हा खाली राहिलेला भाग म्हणजे ४०,४५ फूट आणखी खाली पाईप सोडून एकवार ट्रायल घेऊन पहावीअशी माझी शिफारस आहे.

आज तिकडे येण्याचे ठरविले होते. परंतु एकतर परवाच्या दसऱ्याचे सुट्टीमुळे उद्या रविवारची सुट्टी बंद आहे. शिवाय गेले चारपांच दिवस रा. लक्ष्मणराव किर्लोस्कर हे अजारी होते व अंथरुणाला खिळून होते. गेल्या एकदोन दिवसापासूनच त्यांना थोडेसे बरे आहे. त्यामुळे येता आले नाही. आता त्यांना आणखी थोडे बरे वाटल्यावर येण्याचे ठरविले आहे. आम्ही सभ्य आलो म्हणजे तुमच्या व आमच्या विचारे पंप कोणता बसवावयाचा ते ठरवून टाकू.

टाकी बांधण्याकरता विटा वगैरेच्या तयारीबद्दलही खुलासा झाला, परंतु तशा पद्धतीची टाकी न बांधता अखंड ओतलेली सिमेन्ट कांक्रीटचीच बांधावी असे रा. भांडारे यांचे मत आहे व तशी मजबूत व चांगली सिमेन्ट कांक्रीटची टाकी तयार करून देऊ असे रा. भांडारे यांनी सांगितले आहे.

हल्लीच्या बोअरवर ट्रायलकरता पाठविलेला पंप इतक्यातच परत करू नये. कारण पुन्हा जे दुसरे बोअर घेतले जाणार आहे त्याची ट्रायल घेणे झाल्यास या पंपाचा उपयोग करता येईल व या दुसऱ्या बोअरचे काम झाल्यावर हा पंप परत आणता येईल. तोवर तिकडेच असू द्यावा.

आता एका गोष्टीबद्दल खुलासा करावयाचा म्हणजे बोअरिंगच्या कामावरी

जी माणसे इकडे परत आली आहेत ती पगाराची मागणी करीत आहेत. बोअरवर काम करणाऱ्या या लोकांना दररोज पांच आणे व मेस्त्री पापा यांस दरमहा पंचवीस रुपये असा पगार द्यावयाचा आहे हे आपणांस कळविले होतेच. तेव्हां येथे आलेल्या माणसाला किती पैसे दिले आहेत व त्याच्या बाकीच्या पगाराची काय व्यवस्था आपण सुचविता ते कळवावे. सदरहू माणूस येथे आमचेकडे पगाराची मागणी करीत आहे म्हणून मुद्दाम विचारले आहे. तेथे काम करणाऱ्या लोकांचे पगार आपण तिकडच्या तिकडेच निकालांत काढल्यास बरे होईल.

कळावे लोभ असावा ही विनंति.

Dear Mr. Kabbur,

I am specially deputing Mr. Kaujalgi to you. The demand for cottages is very keenly felt now a days and if we don't errect them immediately we lose so much. So we have taken 4 'C' type cottages under construction which will finish by the end of this month.

Therefore I make myself bold to request you again to hurry up your errection and thus help the cause when the necessity is so very keen. Due to your multifarious business activities, it will not be possible for you to devote any special interest or time towards us. I realise it. Hence I suggest you please give us the amount and the plan and entrust us with the construction. I assure you, all your details will be scrupulously observed.

I am suggesting this plan simply to expedite the work since our needs have become very pressing. I need not write more and hope you will do what is right.

To

Ramakant S. Golikeri, Esqr.,

Dear Mr. Ramakant,

Your letter of the 16th instant to hand. I had been out of station and hence the delay in reply.

Regarding the patient you intend to send here, you are welcome to do so at any time. According as the case turns out T. B. or otherwise, she will be accommodated in a suitable ward.

I have been thinking of the question of the 'Kundapur Kutir' since the 4th August 1940. As far as our Sanatorium is concerned this is a new problem to me. So long we have been charging the patients an aggregate amount per day including the accommodation charges and the charges for medical attendance and other services.

There is no amount for rent separately shown in our bills which amount to about Rs. 50/- p.m. for the T. B. patients occupying the cottage or any other separate quarter.

But with a view to carry out the wishes of the donor, I am intending to credit Rs. 10/- per month as rent to the account of the 'Kundapur cottage fund' out of the bills received from the patients living in that cottage. This is the arragement which I am making pending the final resolution of the Committee in this behalf. As there is already a rush of T. B. patients the cottage will always remain occupied.

Mr. Hanamantrao Kaujalgi is here. I asked him about the draft of the resolution. He said he will think and write to you or Dr. Hardikar in this behalf.

I request you again not to

hesitate to send the suffering ~~the~~ lady. We shall try to give her the best available treatment.

To

Shrimant Sirdar L. N. Heblikar,
Secretary, Sir Leslie Wilson Memorial
Scholarship Fund, Dharwar.

Dear Sir,

Having heard that there is a fund collected by a Committee of some Deccan Sirdars for the purpose of giving scholarships to deserving students for the study of useful subjects, I am approaching you on behalf of the Health Institute and Sanatorium at Hukeri Road Station in the Belgaum District.

After completing my studies in America I returned to India and started my medical and surgical practice at Belgaum. When I saw hundreds of tubercular cases approaching myself and other local practitioners leaving us without any permanent cure, I thought I would be more useful to my countrymen if I started a Health Institute and T. B. Sanatorium.

With the willing co-operation and help of friends and generous donors, I have been able to start such an Institution near the Hukeri Road Station. It is working since May 1935. The locality is noted for its healthy climate and mineral water and so the services of the Institution are being availed of, by an ever increasing number of ailing persons including the T. B. patients.

I may state here that the number of T. B. patients seeking admission to our T. B. Wards is very much in

in excess of the number of beds available. You will realise the gravity of the situation when I mention to you that while the estimated number of T. B. sufferers in India is about 6,000,000, the total accommodation in all the T. B. Sanatoria of the whole of India put together is only 3000.

From my last fifteen years' experience in India I have found that a large number of T. B. cases have become incurable only because the disease could not be detected and treated in its early stage. It is a very deceptive malady and misleads the patients and the doctors very easily. If our private medical practitioners in the District and Taluka places could be enabled to detect and recognise the early symptoms of T. B. a large number of cases that may be then sent to the Sanatoria will be curable. It is very difficult to disturb the medical men that are already established in practice; so I am thinking of offering one year's course of practical training in the examination and treatment of T. B. patients to at least one or two medical graduates per year, before they open their dispensaries in the District and Taluka towns in the Southern Marathā Country. This will be a course of Post-Graduate training for them giving them special knowledge about T. B.

This arrangement is essential, but as our staff of Medical men is already full we can't maintain such post-graduate students by paying them stipends or scholarships. Your committee will agree with me when I say that a post-graduate training in the treatment of T. B. cases will be a boon to the society.

If your Committee places at the disposal of our Institute six to seven thousand rupees we shall be able to erect four or five separate T. B. quarters on our grounds and out of the rent recovered from those

quarters we shall be able to maintain one medical graduate on a stipend of about Rs. 50/- p.m. Thus both the post-graduate student and the Institution will be enabled to serve the public more efficiently.

I hereby request the Members of your Committee to visit our Institution once, if you so like, and help us in our work by granting the above request as well as by any other means. I am herewith sending the latest report of our Institution and shall be glad to supply you with any other information which you need.

I hope you will place the matter before the Committee at an early date and grant the request.

I remain,
Yours faithfully,

Dear Sir,

I beg to acknowledge receipt of your letter No.1033/1948 dated 30.12.1948 complaining about the delay in opening of the level-crossing gate at Hukeri Road station. I regret the inconvenience caused to you and would assure you that this matter is receiving my special attention and the staff have been given strict instructions to ensure that they will not give room for such complaints again. I shall be glad if, in future, you will kindly give me the date and time when the gate was closed for unnecessarily long time. It will facilitate my fixing the responsibility on the staff and dealing with the offenders suitably.

Thanking you for bringing this matter to my notice,

Yours faithfully,

Dear Dr. Vaidya,

I am sorry I could not meet you at Hukeri Road. Dr. Hardikar is there. He is advised to have injections of Coll. Cal with Vit. 2 c.c. every 3rd day A [illegible] 6 injections is to be given. He is given 3 injections already. Vit. K. Tablets are to be continued if his sputum is still rusty.

I am sorry to hear that you lost your case. All the medicines were taken from Dr. Gokhale's personal stock. They can be returned when anybody goes to Bombay.

There was a post-card from Mr. Haraldar, when I was in Bombay, about to send a trained nurse to Hukeri Road. I have called the new batch of passed nurses to-day. I would like to know if he would be available & let him know via Miraj.

Yours sincerely,

My dear Dr. Kokatnur,

I expect you will be very surprised when you receive this letter from me after the lapse of so many many years.

I hope you are keeping well and so also your family, and I wish you all the best during this year 1949.

I am enclosing herewith a descriptive pamphlet of a lamp for which the firm where I am working are the sole agents. I feel sure this will be an IDEAL LAMP for your OPERATION THEATRE, especially as I think that there being no Electricity Company anywhere near your hospital, you could not be having any lighting system, unless of course, you have now your own Generator.

In any case, if you are interested, I shall be glad to know and as we have one sample light in our office just now, it could be deliv red to you with the least possible delay. The price is $36.00 (dollars thirty six only) plus expenses. Thirty six Dollars comes to approx. Rs.120/- or so at present.

If the lamp does not interest you, I shall be glad if you will kindly return to me the enclosed pamphlet and oblige.

With my kind regards,

Yours sincerely,

Subject:- Electrification and water supply.

Sir,

We beg to bring the following facts for your urgent con-sideration.

1. The way side station of Hukeri Road is showing signs of rapid growth in population and industries from this year.
2. Already there is Hospital and Sanatorium, an Oil Mill has started working this month, a Glass Factory is already in full swing and the metal works Factory is being shifted nearby. Besides these, the dwellings and shops in the vicinity are growing in number every year.
3. At about a mile and half from the station, the big -- scheme of Ghataprabha Vally cancls, is responsible to develope a colony of more than 200 people.
4. The want of water & electricity is keenly felt by all the above Institutions and as some plans were being thought out by ourselves, it was brought to our notice that the Ghataprabha Colony is in a very short time going to have its own Power Station and water supply for its Workers.
5. We approached the Engineers and P.W.D. authorities to explain our wants for the same and on their advice we approach you. We do want to take advantage of the com-pulsory developing installations by increasing their capacities so as to be able to satisfy our needs and those of the unrepresented populationhere for the two essentials of life.

Dear Mr. Alvares,

In continuation of my No. 130/1949 dated 30-1-1949. in reply to yours of the 28 th January 1949, I am glad to know from Dr.Joshi. who had come here yesterday that he has approved the lamp which was shown to him by you.

Please therefore arrange to send the lamp to me with 2-3 spare bulbs which he has mentioned to you about.

As soon as I hear from you I will send you a cheque. With warm regards.

Old Chapel, Chapel Lane,
SANTA CRUZ. 9th February 1949.

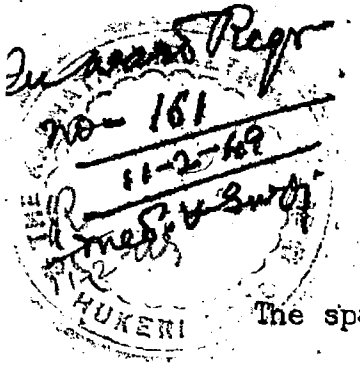
Dear Dr. Kokatnur,

I am in receipt of your letter and am glad to note that you wish me to send you the lamp which Dr. Joshi has approved. I am sorry I could not deliver the lamp to Dr. Joshi - as on account of certain enquiries I had to make regarding the bulbs (spare) and the batteries which Dr. Joshi wanted me to include with the lamp took me a lot of time.

Upon investigating I find that these bulbs could be obtained in Bombay as also the batteries and these would cost approximately Rs.25/- for the three bulbs and Rs.45/- for the three batteries.

Now coming to the price - you will remember I wrote to you that the cost would be Dollars 36/- plus expenses. On calculating this comes to : -

Cost of lamp $36.00	.. 36.00	
Plus shippers expenses.	3.50	
	39.50	
@ Exchange 332.25		Rs.131--3--9
Plus Duty, freight , clearing and other charges.		43--3--0
Total cost:		174--6--9



The spare bulbs and batteries would of course be extra and separate.

I do not know whether this price suits you, but if it does, I would suggest that you send a cheque made out in the name of M.A.HOOSEIN & BROS. BOMBAY. In any case, please let meknow whether you approve of the price - the question of the cheque later.
With my kindest regards,

Yours sincerely,

P.S. I am writing this - as I am not sure whether the cost suits you, but I would like to tell you that it is worth it - as the lamp is the only one of its kind on thisside.
